Summary

A self driven, enthusiastic individual that loves a challenge with only 6 months experience in the computer coding world and a tenacity to further the skills acquired during the Full Stack Bootcamp course. In addition to having over 10 years experience in retail specialising in consumer electronics and developing many customer orientated skills.

Technical Skills

Languages: HTML, CSS, JavaScript, React, MySQL, NoSQL, GraphQL/Apollo and Chakra UI.

Applications: Node.js, Express.js, JQuery, Handlebars.js, Sequelize, MongoDB and JWT's.

Tools: Visual Studio Code, Heroku, Insomnia and Robo 3T.

Projects

Novice Chef | github.com/BT134/novice-chef | bt134.github.io/novice-chef/

- The idea behind this project was to create a website that made deciding what to cook easy, allowing the user to search by dish name or ingredient.
- Responsibilities included designing the page layout, styling the pages with CSS and assisting in creating the randomised page.
- This project was built with Visual Studio Code using HTML, CSS JavaScript and included YouTube and MealDB API's.

Am I A Joke To You | github.com/Rach-Gee/Am-I-a-Joke-to-you | am-i-a-joke-to-you.herokuapp.com

- A jokes website that allows signed in users to post new jokes and rate existing ones. Users without accounts can still view the content.
- Responsibilities included styling with CSS, setting up handlebars to display seeded data and adding login authorisation to create or comment on jokes.
- This project was build with Visual Studio Code using HTML, CSS, JavaScript, SQL, Handlebars.js, Node.js, Express.js and eslint.
